

Proposed repositories for reagent resources

Resource Category	IDG Resource Repository	Repositories used by other NIH Programs	Repository options (for physical samples)	Registration options (not for physical distribution)
Mice	MMRRC		JAX	scicrunch.org
DNA constructs	AddGene			NCBI
Cells			ATCC, Coriell cell repository, SigmaAldrich, Invitrogen (ThermoFisher), Gibco (ThermoFisher), WiCell	scicrunch.org
Small molecules			http://zinc.docking.org/search/catalogs ; SigmaAldrich, SelleckChem, Tocris	PubChem, ZINC
Probes	chemicalprobes.org		Any small molecule supplier, e.g. Selleckchem, MedChem Express, Cayman	
Antibodies		DSHB: http://dshb.biology.uiowa.edu/	Antibodies Inc, GeneTex, Abcam, Invitrogen (ThermoFisher)	scicrunch.org, NIF (http://antibodyregistry.org), https://www.antibodypedia.com
Tissues			IDG as biobank under Coriell repository; tissue4research	
Peptides			New England peptides	NCBI
